Capability Statement

IT Solutions for your Agency

Based in Indianapolis, Awak3ning Cyber (A3C) is an information technology (IT) and cybersecurity woman-owned small business helping agencies unlock their digital potential while maintaining security.

We provide innovative and proactive planning, analysis, and implementation of technologies and continuous monitoring to ensure the reliability, availability, integrity, and resilience of systems, processes, and resources necessary for mission success and competitive advantage.

At A3C, our goal is to empower our customers by delivering professional services and capabilities that are mission focused throughout the acquisition and system lifecycle process for federal and commercial sectors. With over 26 years of experience in IT and cybersecurity, our team of experts is highly skilled, certified, and possess TS Public Trust clearances.
